

# POLYTRAC SITE PROTECTION MATS

## Serious About Campsite Protection? Rely on PolyTrac, the Versatile Aussie Mat

**PolyTrac Mats** are the most versatile and environmental solution for high traffic areas. They are ideal for protecting sites, providing annex flooring and pathways.

**PolyTrac Mats** are made from recycled plastic. They are light and easy to install. They replace heavy pavers, concrete bases and rubber mats.

Aussie-made **PolyTrac Mats** come in convenient sizes:

Sizes (m)	Ideal for
2.4 x 1.2 (8' x 4')	Caravan and tent sites, pathways, pools
2.4 x 0.6 (8' x 2')	Mobile home bases, wheel tracks, pathways
1.2 x 0.6 (4' x 2')	Storage of caravans, boats, entrance mats
1.2 x 0.4 (4' x 1.3')	Vehicle Bog Mats – 4WD, 2WD

**PolyTrac** handles the heaviest vehicles, yet is gentle on bare feet. Its double non-slip surface prevents accidents.

**PolyTrac Mats** are unaffected by Australia's harsh weather, household oils and chemicals. They are impervious to termites and other household pests.

They won't rust, rot or delaminate, and are supremely tough for the heaviest vehicles. Yet flexible enough for uneven ground.

The **PolyTrac** range has so many uses:-

- Caravan annex flooring
- Temporary roads
- Footpaths
- Vehicle tracks
- Tent sites
- Vehicle Rescue Mat (bogging)
- Camping
- Storage of boats and caravans
- Garages and workshops
- Outdoor entertainment areas

### Why **PolyTrac**?

- 100% Australian-made
- 100% tough recycled plastic
- Most cost-effective solution
- Quick and easy
- Lifetime Weather Resistance
