

Material: Premium HDPE Black, Weatherproof

Pad Dimensions mm	Pad Weight kg	Capacity tons	Cost
400 x 400 x 50	8	18	\$88
500 x 500 x 40	10	18	\$113
600 x 600 x 40	18	21	\$159
800 x 800 x 50	32	30	\$306
800 x 800 x 60	39	40	\$367
800 x 800 x 80	NA		
1000 x 1000 x 50	50	40	\$481
1000 x 1000 x 60	60	70	\$572
1200 x 1200 x 70	101	80	\$936
1200 x 1200 x 80	115	90	POA

Note:

- The IPAF (International Powered Access Federation) advises that spreader plates should always be used with boom-type mobile elevating work platforms when fully supported on their outriggers, unless a risk assessment indicates they are not necessary (source: www.ipaf.org website, 'Spread the load' campaign)
- The above table assumes 4 pads per crane, with even weight distribution
- Assumes solid ground
- This list is the most popular Polysource range. Other pad sizes are available
- All Polysource pads include handles / sling holes
- No warranty implied, due to ground and slope variability
